Continue to select terrain for all above selected 3D Replays

Missing Links:

Annotations and samples may exist for dives of an expedition even though they do not appear in this table. The links will be provided here after dive numbers, start, and end times have been entered. To enter dive information click on the expedition date(s) link and complete the Postcruise report; Science team members are encouraged to complete this report as soon as possible following the cruise as this information enhances the quality of the data. The final database entry is made by the logistics coordinator based on your input. Annotations and samples are entered into their respective databases by the video lab staff and samples coordinator and will be found if you query those databases directly. If you see that other data links may be missing please contact Mike McCann.

Data link information:
0. The 3D Replay requires a browser plugin and special software. See 3D Replay requirements and FAQ for details.
1. Video Annotation retrieval
2. MBARI Sample Collection information and Query the Samples Database
3. Background on Frame Grabs
4. Links named like "Data for dive xxxx (xxx points)" are returned from the Rovctd table and include quality flags. This links will not appear if dive numbers, start, and end times have not been entered. Please see Information about ROVCTD data.
5. Camera log file format
6. Original roadmap to Navigation data and Navigation Data Archive

For more details on MBARI's data archive, please see Links to files, documentation, and file maintainers.

Total of 14 expeditions found with query:
SELECT * FROM Expedition WHERE (ShipName = 'wfly') AND (ExpdChiefScientist LIKE '%Ken Smith%') ORDER BY ScheduledStartDtg [25 wallclock secs (1.31 usr 0.34 sys + 0.00 cusr 0.00 csys = 1.66 CPU)]
